

Carefree thanks to
Warranty Extension

**Protect your investments against
unplanned costs and loss of value**

Putzmeister offers an extension of its comprehensive manufacturer's warranty to **two or three years**.

Should material or manufacturing defects occur, these will be rectified quickly and free of charge as usual. This is carried out professionally by Putzmeister or its authorised service partners using Genuine Parts.

When reselling the machine, the warranty extension can be transferred with it and thus contributes to the value retention of your investment.

Another advantage: You do not have to decide right away. The contract can be concluded at any time before the expiry of the standard warranty.

All benefits at a glance

■ Risk minimisation

No financial risks due to unplanned repair costs

■ Continuity

Same services and conditions as with the standard warranty

■ Quality

Repairs are carried out with Genuine Parts and by authorised service partners

■ Value retention

Transferability of the warranty extension and valued proof of a well-maintained machine

■ Flexibility

Can be commissioned with a new order or at any time before the standard warranty expires.

■ Availability

For all current truck-mounted concrete pumps available

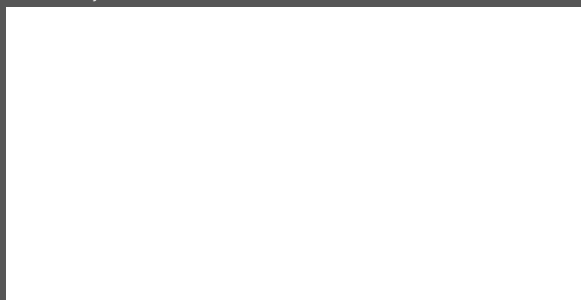

■ Two variants:

Extension to 24 months or 2,000 operating hours, whichever occurs first

Extension to 36 months or 3,000 operating hours, whichever occurs first
