

MB5600, suitable for 6x4 chassis with wheelbase R3900

## Numerous storage space solutions for exactly your machine

A high payload and ergonomic storage solutions for pipes and hoses are crucial for every operator of a truck-mounted concrete pump in the 20 m class.

The 20 m class offers more space and better accessibility than ever before, e.g. magazines, shelves or storage boxes for hoses, pipes, couplings and other accessories.

Depending on the machine configuration, more than 200 m of hoses and pipes can be transported!

On three different levels (A to C), the machine can be adapted to your individual requirements - simply to make your daily hard work easier!

- Level C: Additional storage space
- Level B: Main storage space
- Level A: Storage space under the platform

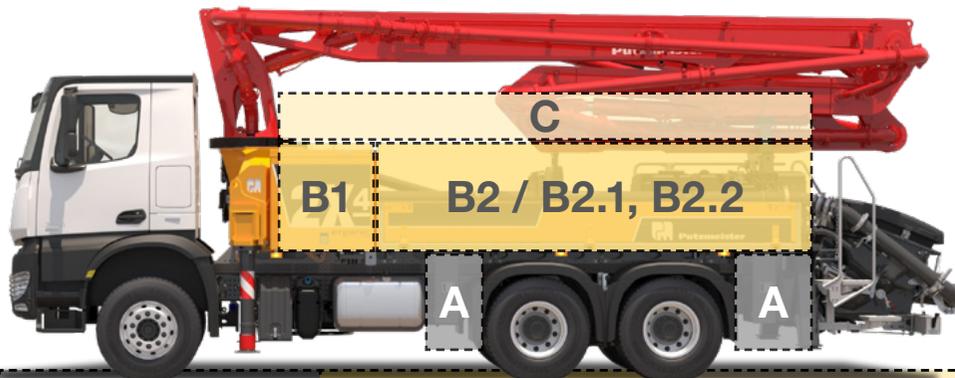

**Configure your storage space together with your sales partner!**

MB dimension (body frame length)	MB 4440	M4700	MB 5000	MB 5300	MB 5600	MB 5900
Possible core pump type	1400	1400	1400	1400	2100 & 1400	2100 & 1400
Available platform length	3.1 m	3.4 m	3.7 m	4.0 m	4.3 m	4.6 m
Axles	2 axles			3 axles

Overview left side

<b>A</b> Storage space under the sidedeck	<b>B</b> Main storage space	<b>C</b> Additional storage space options
-------------------------------------------	-----------------------------	-------------------------------------------

Overview right side

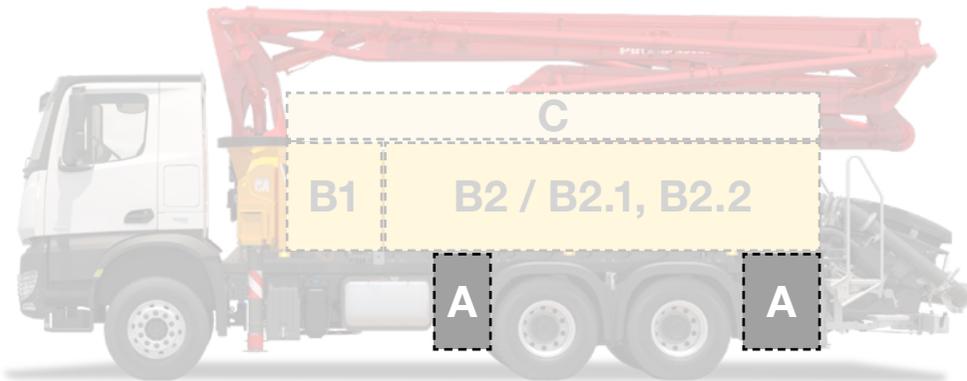

<b>A</b> Storage space under the sidedeck	<b>B</b> Main storage space	<b>C</b> Additional storage space options
-------------------------------------------	-----------------------------	-------------------------------------------

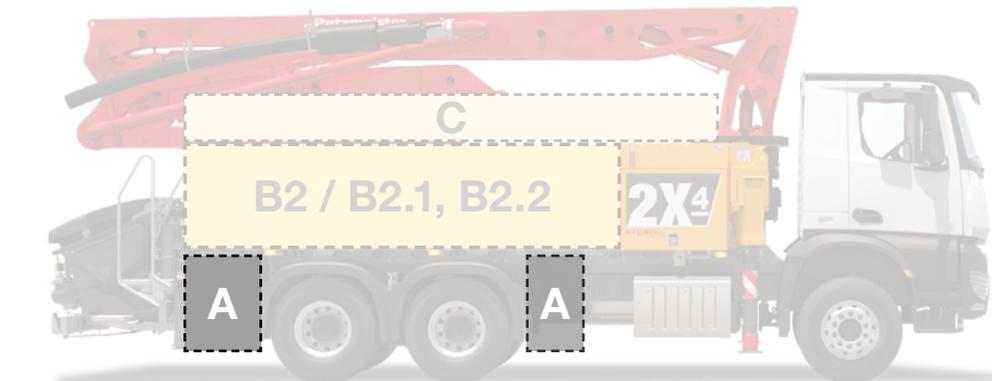

Explanation of the configuration logic: Only one option per defined storage space of levels B and C can be configured. This means: 1x B2.1 and 1x B2.2. If you select B2, B2.1 and B2.2 are blocked. To configure level C, you must also select B.  
Note: The order clarification must be carried out together with the engineering department of Putzmeister Concrete Pumps GmbH. Subject to technical changes due to machine configuration.

Storage space B right side

MB5600, suitable for 6x4 chassis with wheelbase R3900

Please select

**B2.2**

**Pipe storage compartment 3 m**  
ST003090

*Only MB 5300, 5600 & 5900*

- Pipe magazine with fixed holders for 3 m pipes for easier (un)loading.
- Neat storage and safe stowage of the pipes thanks to the new pipe magazine with holders that protect the pipes from falling out.
- Optional: storage compartment on the top for even more equipment.
- **Space for up to 9 pipes with 3 m length and DN125 = up to 27 m total length** (andere Durchmesser, anderer Platzbedarf)

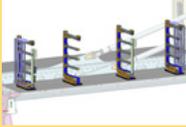

**Brackets for pipes 3 m**  
ST002981

*All MB dimensions, for <5300 only without B2.1*

- Most cost-effective design with these pipe brackets for 3 m pipes
- Easy storage of the pipes thanks to the holder system
- Best distribution and compactness for as many pipes as possible
- Optional tension straps to secure the load inside the holders
- **Space for up to 10 pipes with 3 m length and DN125 = up to 30 m total length** (andere Durchmesser, anderer Platzbedarf)

Please select

**B2.2**

**Pipe storage compartment 3 m**  
ST004010

*Only MB 5300, 5600 & 5900*

- Pipe magazine with fixed holders for 3 m pipes for easier (un)loading.
- Neat storage and safe stowage of the pipes thanks to the new pipe magazine with holders that protect the pipes from falling out.
- Optional: storage compartment on the top for even more equipment.
- **Space for up to 12 pipes with 3 m length and DN125 = up to 36 m total length** (andere Durchmesser, anderer Platzbedarf)

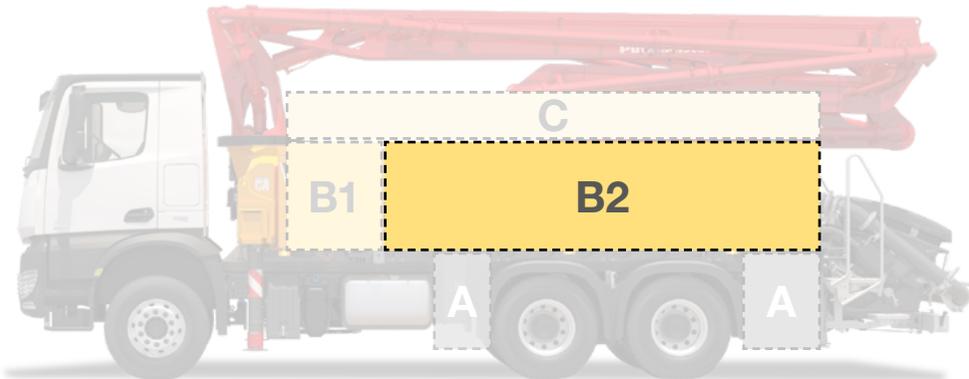

**Brackets for pipes 3 m**  
ST004006

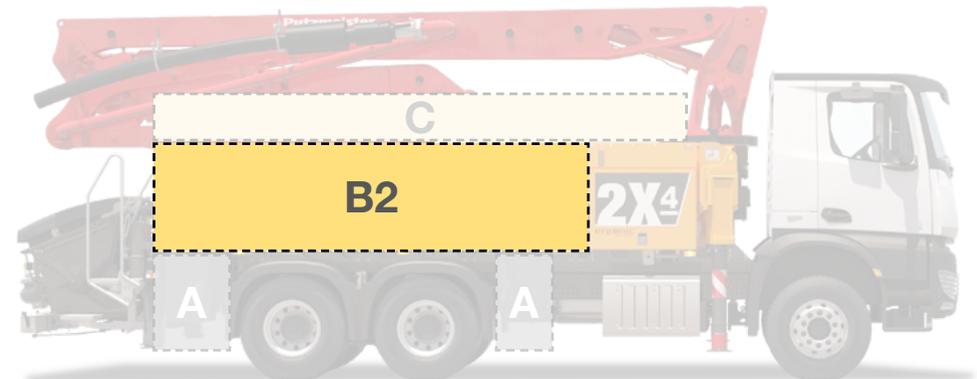

*All MB dimensions, for <5300 only without B2.2*

- Most cost-effective design with these pipe brackets for 3 m pipes
- Easy storage of the pipes thanks to the holder system
- Best distribution and compactness for as many pipes as possible
- Optional tension straps to secure the load inside the holders
- **Space for up to 10 pipes with 3 m length and DN125 = up to 30 m total length** (andere Durchmesser, anderer Platzbedarf)

Storage space B left side

Storage space B right side

MB5600, suitable for 6x4 chassis with wheelbase R3900

Please select

**B2**

**Side panel foldable**  
EX003050

- Safe storage on the sidedeck thanks to folding beaters
- 400, 600 and 800 mm height available
- Option remains if options are selected on B2.1 or B2.2
- EX003172: 600 mm height / EX003173: 800 mm height

*Not possible with:  
ST003082, ST003083,  
ST003087 and ST003089*

---

**Ergonomic magazines, 4 m, hydraulically retractable**

- Easy and ergonomic loading and unloading of hoses thanks to height-adjustable magazine
- Easy handling of the magazine
- Less space required due to new kinematics of the retractable magazine
- (Un)loading of the hoses is possible from the back and the front
- Complete magazine can be removed and replaced
- Compact design of the kinematics maintains ease of maintenance
- Optional: storage compartment on the top for even more equipment

ST003082 ..... up to 24 hoses with 4 m length and SK75 = up to 96 m total length  
ST003083 ..... up to 14 hoses with 4 m length and SK100 = up to 56 m total length

*Only MB 5600 & MB 5900;  
MB 5300 on request*

---

**New hose magazine, fixed, 4 m**  
ST003087

- Clean storage of the hoses thanks to the new Putzmeister magazine.
- Easy and ergonomic loading and unloading of the hoses thanks to guide rollers.
- Best distribution and compactness for as many hoses as possible with cost-efficient design
- Lightweight construction with aluminium
- Optional: storage compartment on the top for even more equipment
- Space for up to 24 hoses with 4 m length and SK75 = up to 96 m total length** (other diameters, other space requirements)

*Only MB 5600 & MB 5900;  
MB 5300 on request*

---

**Hose tray magazine, 4 m**  
ST003089

- Combination of different levels of storage compartments to create flexible storage space for hoses and pipes.
- Flexible storage of different hose and tube diameters and lengths up to 4 m
- Easy storage of hoses thanks to simple design and flexible distribution
- Secure storage thanks to clever design and optional tension straps
- Space for up to 7 hoses of 4 m length and SK100 per level = up to ~100 m total length** (other diameters, other space requirements)
- Includes ST003094 and EX003050. No further option in C possible.

*Only MB 5600 & MB 5900;  
MB 5300 on request*

Please select

**B2**

**Side panel foldable**  
EX003050

- Safe storage on the sidedeck thanks to folding beaters
- 400, 600 and 800 mm height available
- Option remains if options are selected on B2.1 or B2.2
- EX003172: 600 mm height / EX003173: 800 mm height

*Not possible with:  
ST003084, ST003085,  
ST004007*

---

**Ergonomic magazines, 4 m, hydraulically retractable**

- Easy and ergonomic loading and unloading of hoses thanks to height-adjustable magazine
- Easy handling of the magazine
- Less space required due to new kinematics of the retractable magazine
- (Un)loading of the hoses is possible from the back and the front
- Complete magazine can be removed and replaced
- Compact design of the kinematics maintains ease of maintenance
- Optional: storage compartment on the top for even more equipment

ST003084 ..... up to 28 hoses with 4 m length and SK80 = up to 112 m total length  
ST003085 ..... up to 21 hoses with 4 m length and SK100 = up to 84 m total length

*Only MB 5600 & MB 5900;  
MB 5300 on request*

---

**New hose magazine, fixed, 4 m**  
ST004007

- Clean storage of the hoses thanks to the new Putzmeister magazine.
- Easy and ergonomic loading and unloading of the hoses thanks to guide rollers.
- Best distribution and compactness for as many hoses as possible with cost-efficient design
- Lightweight construction with aluminium
- Optional: storage compartment on the top for even more equipment
- Space for up to 24 hoses with 4 m length and SK75 = up to 96 m total length** (other diameters, other space requirements)

*Only MB 5600 & MB 5900;  
MB 5300 on request*

---

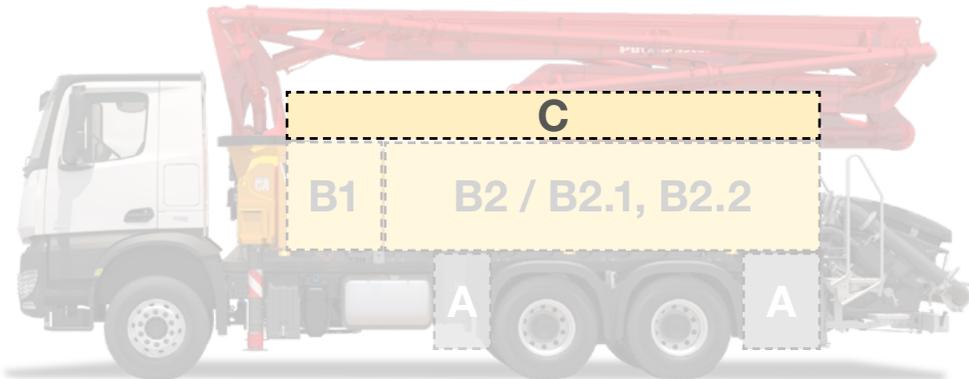

**New hose magazine and storage box below, 4 m**  
ST003088

- Lightweight construction with PE tubes
- Optional: storage compartment on top for even more equipment
- Entry-level model in cost-conscious design
- Additional space for accessories in drawers at the bottom
- Space for up to 16 hoses with 4 m length and SK75 = up to 64 m total length** (other diameters, other space requirements)
- Includes ST003099. No further option in C possible.

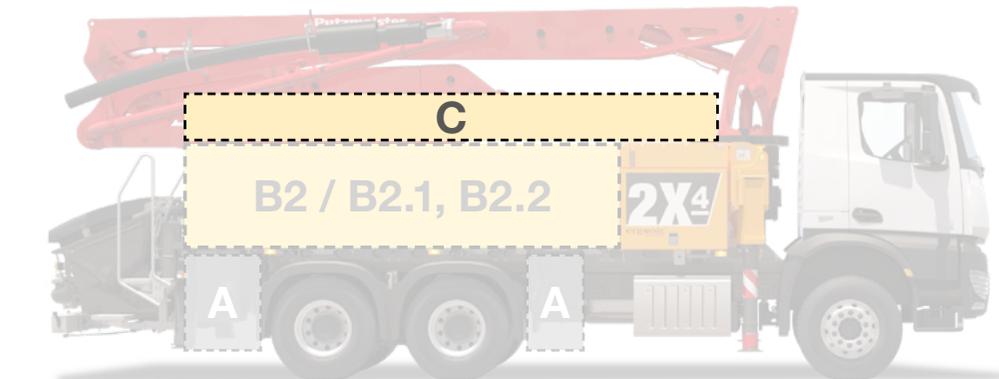

*Only MB 5600 & MB 5900;  
MB 5300 on request*

MB5600, suitable for 6x4 chassis with wheelbase R3900

Storage boxes for accessories on top, right C (only for hydr. exchangeable magazines)	ST003099	C	x	x	x	x	x				x										
Storage tray, 4 m, slanted, right C	ST003097	C	x	x	x						x	x	x	x	x						x
Storage tray, 5 m, slanted, right C	ST003095	C	x	x	x						x	x	x	x	x						x
Storage tray, 5 m, with support and slanted, right C	ST004008	C	x	x	x						x	x	x	x	x						

Explanation of the configuration logic: Only one option per defined storage space of levels B and C can be configured. This means: 1x B2.1 and 1x B2.2. If you select B2, B2.1 and B2.2 are blocked. To configure level C, you must also select B.  
 Note: The order clarification must be carried out together with the engineering department of Putzmeister Concrete Pumps GmbH. Subject to technical changes due to machine configuration.
