

#### Your benefits

- Maintance and service-friendly: everything is protected below the canopy
- Operating panel ergonomical on one side
- Large hopper 280 I with rubber collar and protective grid
- Piston pump unit extremely robust
- With less than 1900 kg the lightest among the fine concrete pumps
- Chassis for road use
- Supporting feet for secure stability
- Made in Germany

# P 715 – Reliable, powerful and mobile for a wide range of applications

Self levelling

- **Calcium sulphate screed**
- **Cement floor screed**

**Shotcrete** 

- **Conveying fine grained concrete**
- **Grouting work**

considerable distances. The powerful piston pump is ideal for shotcrete and liquid screed applications. With a delivery pressure of up to 68 bar and an output of 18 m<sup>3</sup>/ h, it is a real power

The P 715 can reliably convey pumpable media with a grain size of up to 16 mm over

pump, despite its small dimensions and low weight.

Your expert Putzmeister dealer will be happy to explain the additional advantages to you and answer all your questions with regard to your individual requirements.

> Machine operation with the diesel engine only permitted outside the EU!

Fine concrete pumps like the P 715 are among the most versatile systems. You can use them for shotcrete or for pumping fine concrete with a grain size of up to 16 mm.

Reliable oil-cooled 3-cylinder Deutz diesel engine complies with exhaust emission regulation (Stage 3A).

The easy to read, analog instruments and robust switches are protected by a sturdy flap against dirt and the risk of being damaged.

## Technical data P 715 TD / SD

Feed hopper	250 I resp. 280 I (with rubber attachment collar)	
Theoretical delivery rate*	4–17.4 m³/h	
Delivery pressure	68 bar	
Delivery range**	max. 300 m horizontal and 100 m vertical; with shotcrete/fine grained concrete, max. 100 m horizontal and 80 m vertical	
Piston pump	Hydraulic, 2-cylinder	
Cylinder diameter	150 mm	
Drive	3-cylinder Deutz diesel engine, 34.5 kW	
Drive cylinder diameter	80/45 mm	
Piston stroke	700 mm	
Strokes/min	27	
Weight	1850 kg (TD) / 1700 kg (SD)	
Length × width × height	4600 × 1520 × 1750 mm (TD) 2950 × 1400 × 1550 mm (SD)	
Filling height	1180 mm (TD) / 973 mm (SD)	
Maximum particle size	16 mm	
Machine model	Trailer pump (TD), Stationary pump (SD)	
Chassis	T chassis 1900 kg (TD), runner (SD)	

- \* The delivery rate is theoretical and depends on the pump pressure.
- $^{\star\star}$   $\,$  The data is based on experience and is dependent on the materials used.
